MULTIFAMILY HOUSING

LARKSPUR

A FITNESS CENTER FOR A MASTER PLANNED COMMUNITY

Nestled in Texas Hill Country's Williamson County over a sprawling 600 acres, Larkspur boasts over 1400 homes in a large community that is anchored by its common areas. One of these amenities is a fitness space that would not only match the level of luxury that Larkspur prides itself on, but would eliminate the need for gym memberships for hundreds of multi-generational families. From first-time homeowners with children to retirees, the Larkspur has all ages.

- Goals:
- Give a fitness club-quality experience, without a gym
 - Provide equipment for all fitness types and ages

Challenge: Finding the right mix of cardio, strength, functional equipment and accessories for a residential gym to stand on its own.

Solution: Supplied a well-rounded selection of Precor P62 cardio with networked music and video streaming so residents can watch their favorite entertainment, user-friendly Vitality strength series, and a custom Queenax Corner for functional training for all fitness levels.

FACILITY SIZE

1,200 sqft, 1,439 homes
