A LINEUP OF ALL-STAR AMENITIES SHINES IN ITS 2ND NEIGHBORHOOD

The Bridgeland community debuted its master-planned Parkland Village neighborhood this summer, The Howard Hughes Corp. announced. The community in Cypress displays characteristics of a traditional neighborhood design – Parkland Village is designed to use pathways and streets to link homes, parks and commercial venues. Parkland is the second of four villages planned in the 11,400-acre Bridgeland community along the Grand Parkway south of U.S. 290, opened in 2018. Homes in Bridgeland range from the \$230,000s to more than \$1 million. The 25-acre Village Park includes a lazy river leisure pool with beach entry, lap pool, event hall, playground, tennis courts, basketball courts, dog park, kayak launch, and, of course, a state-of-the-art fitness center.

With the guidance of Marathon Fitness's Clint Cooper, Howard Hughes selected all Precor cardiovascular and strength fitness equipment, as well as functional pieces for a well-rounded exercise experience for residents of all ages and fitness abilities.
